DETAILED ACTION

Allowable Subject Matter

Claims 1-10 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 10, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a phase shift fringe image analysis method and apparatus, in combination with the rest of the limitations of claims 1 and 10.

Regarding the claims, the prior art of record discloses varying fringe analysis methods and apparatus using Fourier transforms or being applied for error detection and correction. However, the prior art fails to disclose the shifting of an object and a reference relative to each other using a phase shift device, obtaining fringe image data at a plurality (at least three) phase shift positions having a given phase gap therebetween, and determining the phase of the object using fringe image data and a predetermined arithmetic operation, in combination with the rest of the elements, method steps, and limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420. The examiner can normally be reached on Monday thru Thursday.
